

# MODEL 301EM ACETYLENE MANUFACTURING AND FILLING PLANT

## *Designed for emerging markets:*

- ▶ Skid mounted, portable, and compact
- ▶ High Yield (170/cylinders/month) + Attractive Price Point = Great Value
- ▶ Same quality and safety you have come to expect in a Rexarc plant

The Rexarc plant allows efficient production of the acetylene in areas where volume is low, and the transportation of empty and full cylinders is costly.

*Since 1924, Rexarc has been recognized as the leader in safe, high quality, and high value acetylene gas manufacturing and filling plants ... there is no substitute!*

P.O. Box 7, West Alexandria, Ohio 45381 USA
