Acetone Level Monitoring System (Explosion Proof)

Your acetylene plant will never be the same again

[Fill RFQ Form](#)

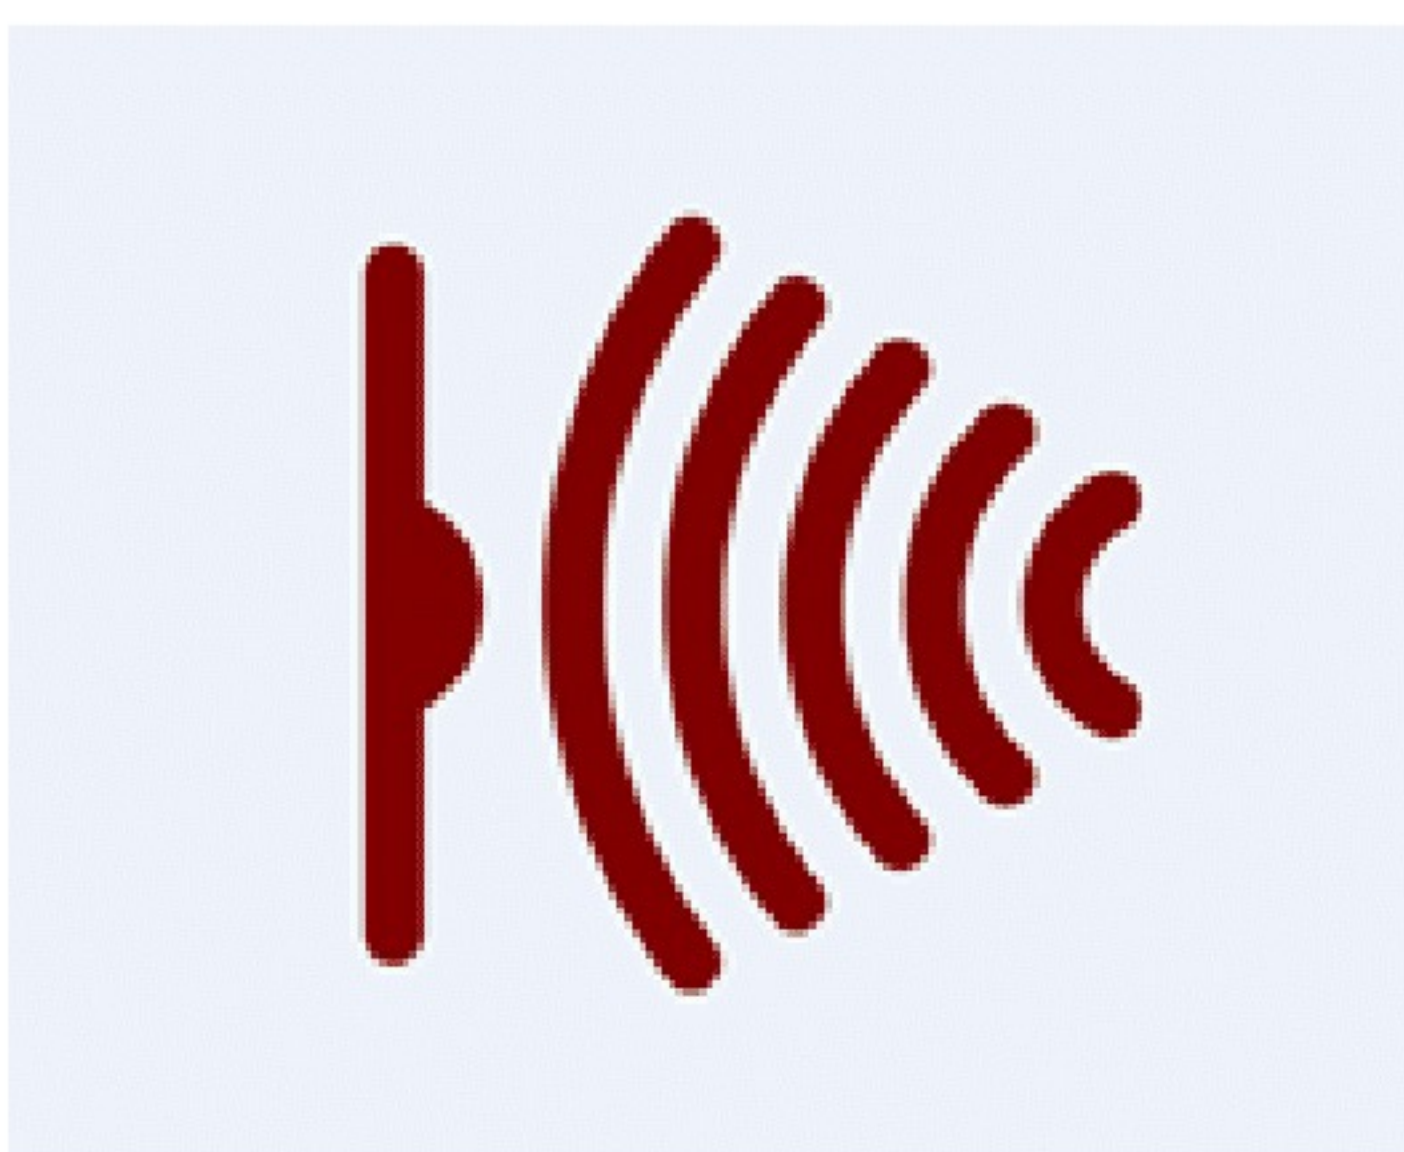

[Know More](#)

Accurately measure acetone levels with scientific tools developed by Rexarc. This innovative product takes the guesswork out of determining the quantity of acetone in a drum or bulk storage tank in your acetylene plant.

Remote X-proof light indicator signals according to pre-set acetone levels.
Designed for simplicity & efficiency.

Why Do You Need an Acetone Level Sensor?

BENEFITS

- ✓ Lower risk, higher safety
- ✓ Reduced Downtime
- ✓ Increased Efficiency

TECHNICAL SPECIFICATIONS

1. Reed Switch Sensor Technology
2. Maintenance-free design
3. 316 L stainless steel construction
4. 100% compatibility with acetone and acetylene environment
5. Integration with drum or bulk storage container
6. Customizable length
7. Max Liquid Temp: 85C. Max Head Temp: 80C
8. Built to ATEX & IECEX standards

Rexarc – Saving you time and money through innovation
